Resources for the TouchStyle Musician

Spring 2000

Correspondence lessons with Frank Jolliffe — No matter where you live you can get Chapman Stick® and Warr Guitar® lessons customized to your level. And you can make real progress in your playing. Topics will include: repertoire • scales • harmonic progressions • interdependence • improvisation • chord voicing • bass lines • and your special interests. All lessons come with recorded music and verbal instruction. The music and tablature you receive is professionally printed and becomes part of your permanent repertoire.

My 22 years of performing and teaching bring you the insider techniques on how to play better, quicker and easier. My experience teaching at the National Guitar Workshop and the European Tap seminar, along with my formal training (Bachelor of Music in Jazz Studies) and a clear, methodical approach guarantees that you will play better, build your confidence, and have fun, too!

For starters, I'll send you a questionnaire. Then you'll record a song plus some scales on a cassette. From this I'll customize a lesson plan just for you. Then you'll get back your tape with my verbally and musically recorded analysis and your first lesson. And now you're on your way! (A lesson a month works great.) Lessons are only \$45.00. Let's get started!

Private lessons with Frank Jolliffe — I'm available for private lessons in the NY/NJ metropolitan area. One on one, hands on, personalized lessons are only \$45.00 an hour. Call me at 973-684-6893.
